

# BUILD YOUR EMERGENCY KIT

You need enough supplies to last up to **7 days**

Water (1 gallon per person per day)

First aid kit

Important documents

Non-perishable food

Power cords/chargers

Dust mask

Manual can opener

Whistle

Family emergency contact information

Battery, solar powered or hand crank radio

Cash (small bills)

Pet food, water, & supplies

Flashlight

Medication

Supplies for children and infants

Extra batteries

Personal toiletry items

Comfort items and games, books, puzzles

## HAVE ENOUGH WATER

You need a gallon of water per person per day. For a family of 4 that's around 224 16oz bottles of water for a 7 day supply.

## ...ENOUGH FOOD

Tip: Make sure it is food your family will *actually* eat.

Each family member needs enough food for up to seven days. Consider the amount of calories needed per person per day (see below):

- Children ages 2-8: 1000-1400 calories
- Children ages 9-18: 1600-2200 calories
- Adults: 1600-2400 calories

## ...AND PLENTY OF BATTERIES

Enough for your cell phone charger, radio, and flashlight.

Solar powered devices are a good option as well.

## STORING YOUR KIT

Your kit needs to be in an accessible location like a closet, under your bed, or in an attached garage.

Backpack

Luggage

Storage box

Waterproof bag/container

Use a container that is easy to transport and is element proof.

## DON'T FORGET.....

Keep a kit in your vehicle

Keep a small kit at work

1/20/1998

Check expiration dates

Pets need their own kit

## HAVE A COMMUNICATION PLAN

1. COLLECT. Create a paper copy of the contact information for your family and other important contacts (e.g. people/offices, such as medical facilities, doctors, schools, and service providers).

2. SHARE. Make sure everyone who is part of your plan carries a copy in their backpack, purse, or wallet. You should also post a copy in a central location in your home, such as your refrigerator or family bulletin board.

## HELPFUL TIPS

3. PRACTICE. Have regular meetings with roommates and/or household members to review and practice your plan.

### TEXT IS BEST!

If you are using a mobile phone, a text message may get TEXT through when a phone call will not. This is because a text message requires far less bandwidth than a phone call.

Text messages may also save and then send automatically as soon as capacity becomes available.

### TRAIN UP

Take a first aid and CPR class through the American Red Cross. Or volunteer for the LMU Emergency Response Team, and help our community prepare, respond, and recover during a natural disaster.

### SIGN UP FOR ALERTS

Check your LMU Alert account to verify that all email and phone numbers are current.

Sign up for City specific notifications: Los Angeles - [NotifyLA](https://www.notifyla.com/), LA County - [Alert.LACounty.gov](https://www.lacounty.gov/alert-lacounty.gov) OR go to - [lacounty.gov/emergency/alert-la/](https://www.lacounty.gov/emergency/alert-la/)
